Vandalay Corporation (AA)

Product: Latex

Vandalay Corporation is a custom formulator and compounder of natural and synthetic latex compounds. Our high quality latex compounds are used to manufacture such medical products as surgeon and exam gloves, catheters, and re-breather bags. Not to mention our natural latex cohesives that are used to coat paper, film, and foam.

Rationale: The products that we help produce are in high demand because they are greatly needed in hospitals all over the world.

Slogan: Latex...always there during desperate times.
