4. What enterprises did you emphasize, crops, hogs and/or cattle?

5. Do you think you generally had the right number of acres for the machinery and labor you had available? Why or why not? How did your yields compare to the maximum yields available each year?
6. Were you always able to rent as much land as you wanted? Did you ever rent too much land?

If you rented land, did you prefer cash rent or crop share rent? __________________
Why?

7. What size machinery set did you have most of the time? __________________
Do you think your machinery set was too small, too large or about right?

Did you purchase a combine? _______ Why or why not?

8. How many sow units did you have after year 5? __________
Was your average pigs weaned per litter usually at least 9.0? __________
If not, why do you think it was low?

9. How many years did you buy cattle? __________
Generally, did you make or lose money on cattle?

10. How many acres of land did you buy? __________
How did it affect your cash flow?
How did it affect your net worth (including changes in land values)?

11. How many times did you run Farmsim each year, on average? ________

12. What was the best decision you made in Farmsim?

13. What would you do differently if you could repeat Farmsim?

14. What did you like most about Farmsim?

15. How do you think Farmsim could be improved?

16. Describe any problems you had with the Farmsim program.

Students will be chosen at random to summarize this information in 5 minutes in class on Friday, December 12. Failure to appear if called will result in a 5 point deduction from the lab grade.
