Course Objectives: The objective of this course is to familiarize the student with basic tools of econometrics. Particular emphasis is placed on qualitative choice/limited dependent variable models. In addition to emphasizing the statistical inference of these models, particular attention will also be paid to the role of microeconomic theory in model specification and to the application of these models in labor, health, transportation, and nonmarket valuation.

Grading: The course grade is based on
1. Three exams (20%)
2. Final exam (25%)
3. Problem sets (15%)

Disability Accommodations

If a student has a disability that qualifies under the Americans with Disabilities Act and Section 504 of the Rehabilitation Act and requires accommodations, he/she should contact the Disability Resources (DR) office for information on appropriate policies and procedures. DR is located on the main floor of the Student Services Building, Room 1076, phone 515-294-7220.
