1. (1) Find all the (pure strategy) Nash equilibria, subgame perfect Nash equilibria, weak perfect Bayesian equilibria, and sequential equilibria of the following two games.
(2) What is the difference between the two games? In your opinion, is it reasonable that they may have different equilibria?

(2) What are the sequential equilibria in this game?

3. MWG, 9.C.7

4. MWG, 13.C.1; 13.C.4; 13.C.6
