<td>30%</td>
<td>25%</td>
<td>15%</td>
</tr>
</tbody>
</table>

Research Paper: The research paper should be 15 to 20 pages (no more than 20), double spaced using 11pt font and 1 inch margins on an 8½x11 paper. It must be either analytical or empirical. No literature reviews will be accepted. The ideal paper will either:

- Attempt to modify or extend a specific model from the literature, leading to a positive or normative result and explain its implications; or
- Test a specific hypothesis derived from the economic analyses in the readings or in the lectures.

Plan to start your papers early. A 1-page proposal is due October 30th and a class presentation of your results or preliminary findings is required during the last two weeks of classes. Ideally, the paper should be completed by the end of the semester, but will be accepted up until March 15th, 2000. It cannot be used in another class.
