

Graduate Program in Sustainable Agriculture  
2008 Symposium  
Wed., 30 April, 2:10  
Sun Room, Memorial Union

Dr. Jason Hill  
Research Associate  
Depts of Applied Economics and  
Ecology, Evolution, and Behavior  
University of Minnesota

## Opportunities and challenges of sustainable biofuel production

Dr. Hill conducts integrative analyses of the technological, environmental, economic, and social aspects of sustainable bioenergy production from current and next-generation feedstocks. His work has been published in the journals *Science* and *Proceedings of the National Academy of Sciences*.
