

HARVARD SCHOOL OF PUBLIC HEALTH

CENTER FOR CONTINUING PROFESSIONAL EDUCATION

Where theory informs practice and practice informs theory®

Leverage the down economy as a chance to outpace your competition.
Discover new ideas that will inspire leaders and strengthen your workplace.
Harvard School of Public Health is pleased to offer the following Risk programs:

Analyzing Risk: Science, Assessment, and Management

April 14-17, 2009

Boston, MA

This program covers the science and analysis of human health risk. Participants learn how to apply the science behind risk-based decision making, examine complex problems involving chemicals in the environment, discuss emerging analytic approaches, and have an opportunity to review important issues with leaders in the field.

Effective Risk Communication:

Theory, Tools, and Practical Skills for Communicating About Risk

May 18-20, 2009

Boston, MA

This in-depth program features the latest scientific findings on risk perception, case studies from around the world, a suite of practical tools, and hands-on skill training. The program will help you and your organization communicate about risk to various audiences.

Group Discounts Available: Register with a colleague and receive a 15% discount on each full tuition. Receive a 20% discount when three or more colleagues from your organization register. That means, when you participate with 4 colleagues, a 5th colleague can attend tuition free! This is an excellent professional development opportunity that can serve as a strategy building retreat for your team.
