

Sigma Xi Lecture

Environmental Impacts of Ethanol Production

The Good, the Bad, and the Alternatives

Felicia Wu is an assistant professor of environmental and occupational health and adjunct professor in the Center for Bioethics and Health Law at the University of Pittsburgh. Her research interests include economics, risk analysis, risk communication, and policy analysis applied to the areas of indoor air, food safety, and biotechnology. Wu has received the National Institutes of Health (NIH) Early Career Award. She has a Ph.D. in engineering and public policy from Carnegie Mellon University.
